

About Us

The Construction Programs Bureau (CPB) directly manages three funding sources, Capital Outlay Appropriations (CO), the Clean Water State Revolving Loan Fund Program (CWSRF), and the Rural Infrastructure Program (RIP). CPB engineering staff provide technical oversight for these funding programs as well as for programs funded by the New Mexico Finance Authority for water, wastewater, drainage, watershed restoration, and solid waste projects.

CPB strives to ensure projects are sustainable, environmentally sound, completed on a timely basis, free of waste, fraud, and abuse.

The Construction Programs Bureau helps New Mexico

Communities develop sustainable and secure water, wastewater, and solid waste infrastructure through funding and technical assistance.
